

- > cold metal transfer buildup with welding wire
- > print rate around 600 cm³/hour
- > material: aluminium, steel and any material composition available in welding wire

arc welding (CMT) with robots

**production directly from
3D CAD dataset**

5-axis machining center

- > metal milling
- > sand milling
- > carbon or SiC milling

Sale of machinery

cheap alternative to previous
market competitors

3D sand print

our services

- > 3D metal printing
- > arc welding (CMT) with robots
- > 5-axis machining
- > 3D sand printing
- > laser welding
